

ICD-10 - Checklist for Practices

ICD-10 is just around the corner and by now the entire healthcare must be prepared for the implementation.

A **checklist** will help you gauge your preparedness for the huge transition. Browse through the below list to know if anything is missing.

What ICD-10 could mean?

Clinicians

- Higher documentation needs
- Higher specificity

Staff

- Having a new set of codes
- New super bills

Payers

- Both Insurance & Patients

Cash Flow

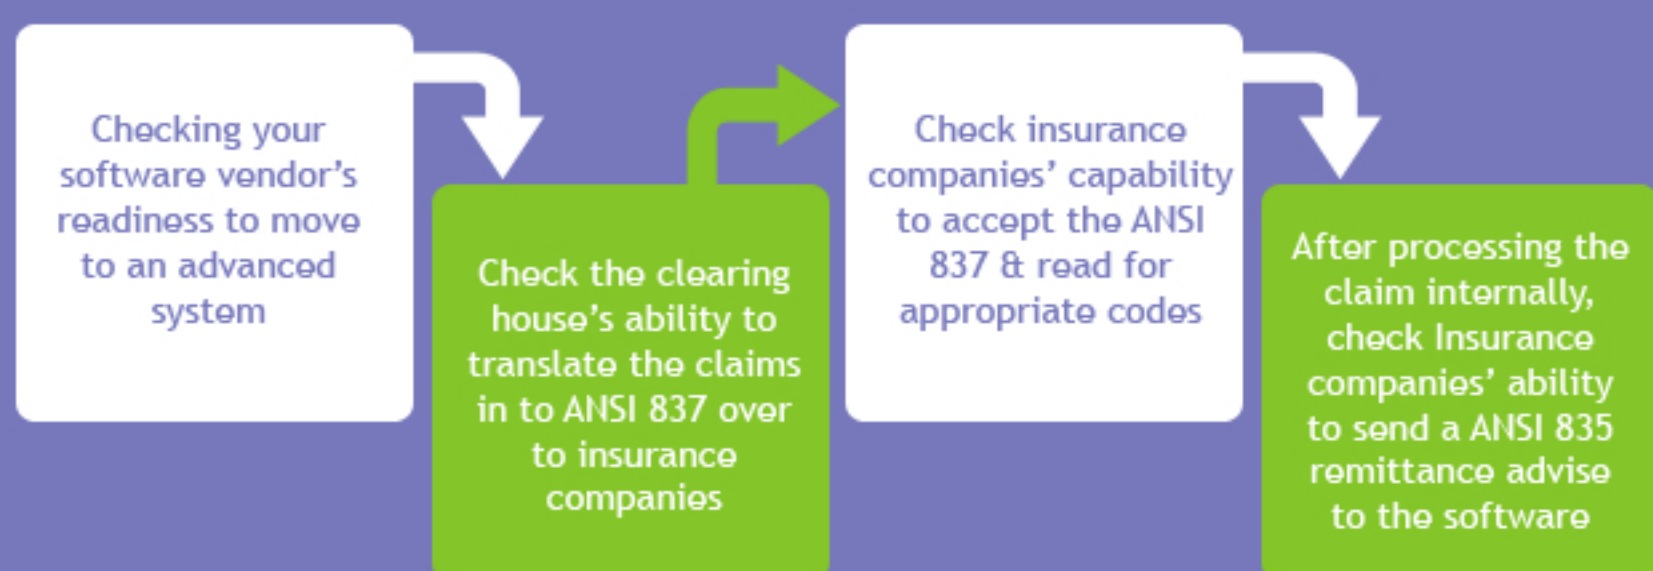

- Uninterrupted Revenue Post October 1

Who is going to bring in the change?

How is the change going to come?

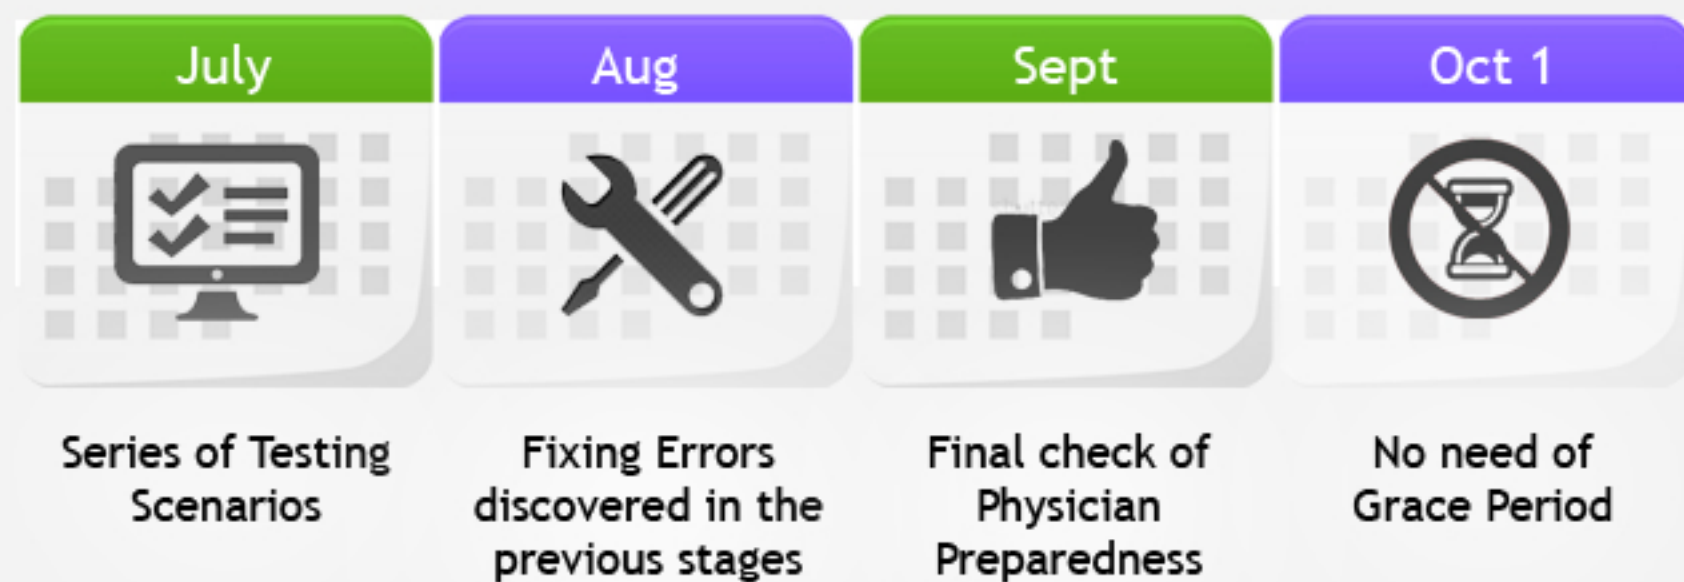

The herculean tasks can be simplified by breaking it into simpler steps

TESTING ... TESTING... & TESTING

The change of **14,000** codes to **68,000** codes can be managed by holding multiple rounds of testing

WHEN -

FAST TRACK PREPAREDNESS

In case your current staff and practice is **contemplating** on "how to begin?" Its time you gathered the advice of experts and expedite your preparation because unless you have 4 months surplus cash flows, you can't afford to continue at snail pace regarding ICD-10 preparedness.

When is the Right Time to take Action?
NOW...NOW...NOW!
