

Legacy AR in Revenue Cycle Management (RCM)

Outcomes that can be expected?

Outcomes in terms of Collection % is always varied, but depending on aging and issues a minimum 20 – 25% of collectible \$ would be recovered within 60 days of a good process

Turn around & Timeline?

Depending upon how many hours and skilled resources are used, Legacy AR should not take more than 90 days to completely resolve

How effective is this solution?

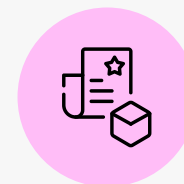

AI can reduce time to resolve old, bulk AR status upto 90%, taking effective steps is where human intervention is necessary

Can AI help resolve Legacy AR?

AI can help getting Claim status briskly and within a few hours. That doesn't solve the AR puzzle but atleast classify the AR buckets

When is AR considered Legacy?

Accounts Receivable in RCM can be considered Legacy if it is more than 180 days old to 700 days
